

6 July 1955

MEMORANDUM FOR: Colonel White

SUBJECT : Real Property Management Report

1. The review of the Commission's Report on Real Property Management, prepared by the Office of Logistics, points out how certain of the Commission's recommendations cannot be complied with by the Central Intelligence Agency. These recommendations, which are indicated by tabs in the Commission's Report, appear to be the only ones applicable to the Agency.

2. Logistics' letter, however, had to be rewritten as it referred to the "Hoover Commission" instead of the Commission on Organization of the Executive Branch of the Government. Since it had to be rewritten, minor changes have been made in paragraphs 3 and 4.

3. Recommend signature.
